

Applications • General Information

30 Two Pipe System using Herz Radiant In-Floor Mechanical Modulating Controller

(°C)
Water Temperature setting

PRODUCT CODE:
VA-1810010
Mechanical non-electric
Radiant In-floor controller
With remote sensor

This piping system utilizes the Herz VA-1810010 mechanical controller for an integrated radiant in-floor application with a max loop length of 30 m. This controller will control the air temperature in the room and the water temperature entering the floor simultaneously, offering flexibility for comfort and efficiency. This controller is designed to be recessed in a stud wall or a vanity cabinet for example. The control head (Part # V-1933005 item #42) has a 6 ft capillary tube. The controller can also be operated by a 24 volt thermal actuator which would be controlled by a remote 24 volt thermostat (not supplied).
