## 34 Series Piping With Room Thermostat

**PRODUCT CODE:**  
**VA-400405**  
Automatic bypass

**PRODUCT CODE:**  
**VA-1624201P**  
Angle connectors  
for PEX pipe

**PRODUCT CODE:**  
**V-C16600**  
Chrome plated drop tube  
24" long

**PRODUCT CODE:**  
**VA-1300231P**  
Straight connectors  
for chrome tube

The series piping system using a low voltage room thermostat to control a zone valve or multiple zones, one of the fastest ways to install a radiator system. Care should be taken to size radiators according to the water temperature drop to avoid under sizing the last few radiators in the loop. This information is intended as a guide only. Use competent qualified installers for pipe sizing and installation.
